**Go with the market, let it be your guide.  
Never impose anything on its behaviour.**

June 7 - 2013

The traders must progressively monitor the market move conditions that validate or invalidate this report's recommended projections. The below studies are technically derived estimates, which have a very high probability to occur, but they might not be exact. They are subject to re-examination and events may dictate their ultimate outcome. An astute trader always trades the market behaviour, not only the recommended projections.

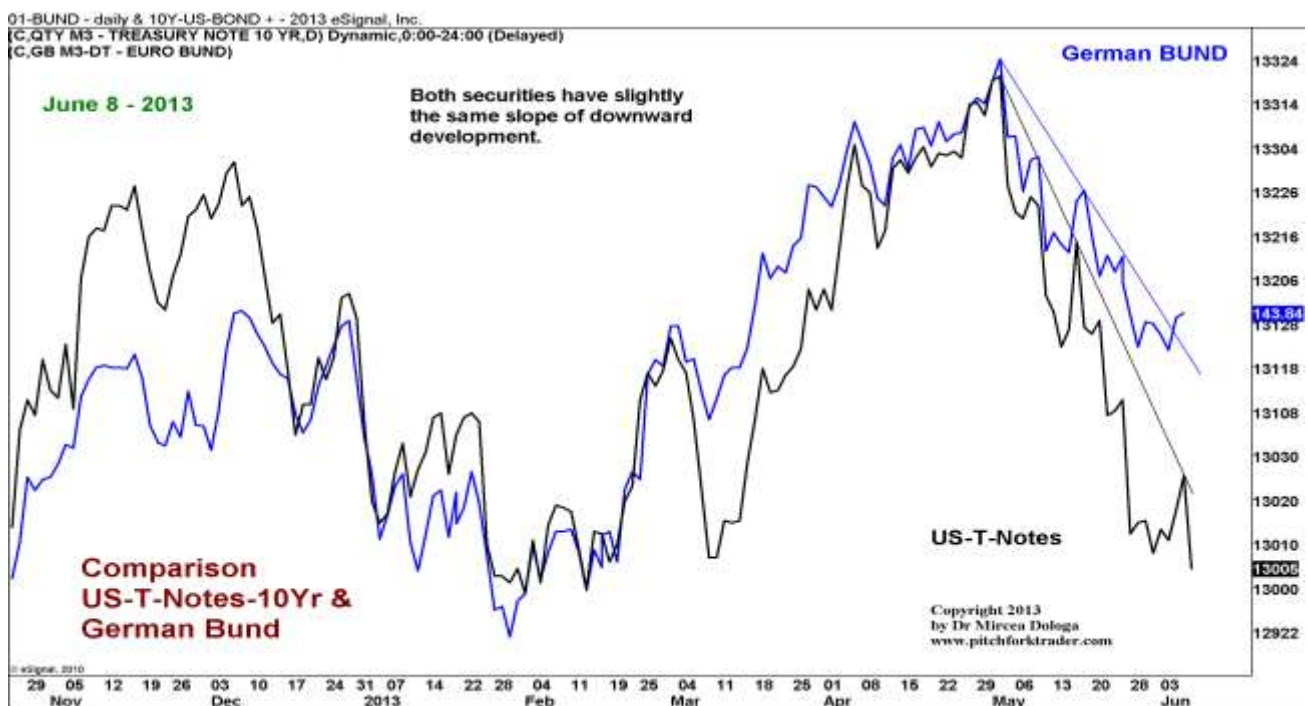

Our research strongly suggests a "top-down" market analysis rather than other procedures. In our opinion, the performed studies with *Cash Index* data are more illustrative than those with *Futures Index* data. However, due to our *Futures* trading preferences, we will use every time, the most adequate data for a specific traded vehicle.

*Oracle from Omaha always quips,*

**"You must be fearful when others are greedy and greedy when others are fearful!"**

+++ Any QUESTIONS regarding this Report will be answered Promptly & Freely ! +++

GOLD & SILVER are in a strong down trend correction, while the USD just made a higher high. It seems that the correlation between the 10-Yr Inflation Breakeven Rate and GOLD is a more reliable indicator of GOLD's future evolution !

**About us:**Email: [mircdologa@yahoo.com](mailto:mircdologa@yahoo.com)

Dr Mircea Dologa began his investment and trading career in 1987, in pharmaceutical and real estate industries. Once he passed the Series 7 and Series 3 exams, he obtained the two indispensable trading licences controlled by United States Government: the *Registered Commodity Trading Adviser (CTA) Licence* and *Registered General Securities Representative - Investment Adviser Licence*. During the training periods, he realized the scarcity in financial literature and trading seminars, of the true 'know how' practical tools. After reading hundreds of books and attending numerous seminars, the same question kept popping up: *Where is the meat?* Most of the time, besides the classics... it wasn't there!

As a registered Commodity Trading Advisor (CTA) with National Futures Association of U.S.A., he founded a *new teaching concept*, based on practical aspects of trading, for both newcomers and experienced traders.

He published more than 50 articles and he is an international contributor to trading magazines in the USA ('*Technical Analysis of Stocks & Commodities*', '*Futures*' and '*eSignal.com Education Section*'); the United Kingdom ('*The Technical Analyst*'); Germany ('*Traders*' – English- and German-language editions); Australia ('*Your Trading Edge*') and Asia ('*The Trader's Journal*'). He is also the founder and the president of [www.pitchforktrader.com](http://www.pitchforktrader.com) – a specialized trading website.

Dr Mircea Dologa has written three books, over 1224 pages, 1560 charts and 44 Excel files, in his quest to efficiently teach the trading art from the beginner's level to the highest nowadays standards – the professional level. The author's main thought during the three years of planning, conceiving and writing these professional trading books, was how to optimally reveal the practical aspects.

*Dr Mircea Dologa attended New York University and Cooper Union School of Engineering and Science in New York and graduated from the latter with a B.S. in Theoretical Physics. He obtained his Doctorate in Medicine from the School of Medicine in Paris. He also took MBA courses in finance and business management at the University of South Carolina in Columbia and at the French School of Business and Finance (HEC Paris France). After holding the positions of Medical Director and later of General Manager, in 1992 he decided to focus exclusively on his investments and since then he has devoted his activity to financial markets. He lives with his wife and two daughters in Paris, France.*

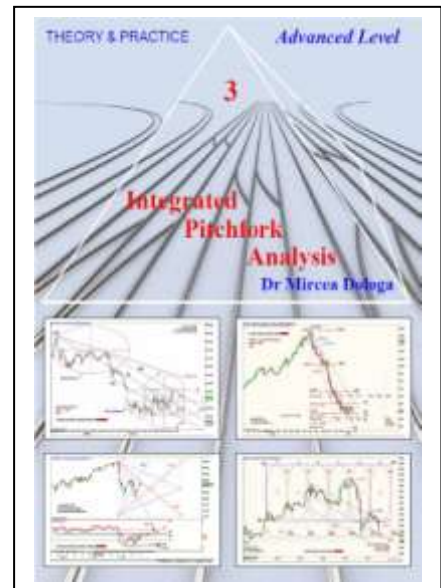

**About Dr Mircea Dologa's works:**  
**Trader, Educator (including mentorship) & Market Researcher**

**Volume 1 - 444 pages**  
 (Beginner & Intermediate Level)

**Volume 2 - 300 pages**  
 (Advanced Level)

**Volume 3 - 480 pages**  
 (Advanced Level)

The below reviews pertain to Volume 1

"Dr. Mircea Dologa's book, *Integrated Pitchfork Analysis*, combines the breadth of evolving theory with the depth of experience acquired from years of practical application, leaving almost no stone unturned in an exploration of the Pitchfork and its application to profitable short-term trading. Many of Dr. Dologa's ideas are truly innovative, reflecting his understanding of human nature. It would be difficult to find a more complete coverage of Pitchfork trading. It is a mine of (literally) valuable information."

Tony Plummer, Director, Helmsman Economics Ltd, and author of *Forecasting Financial Markets: The Psychology of Successful Investing*.

"It has indeed been a privilege for me to have access to Dr Mircea Dologa's amazing analysis which I consider to be an extremely important contribution to Technical Analysis. His development of *Integrated Pitchfork Analysis* in synergy with existing state-of-the-art trading tools resulting in an easy to use professional edge technique has not been previously utilized. This undoubtedly increases the improvement of trading accuracy, leading to enhanced confidence with greater profitability for both trading and investing. This book is a truly remarkable achievement in the field of Technical Analysis and Dr. Dologa, like myself, is motivated to educate traders and investors on the wonderful world of Technical Analysis and how it can help them in these volatile markets. I believe Dr. Dologa will join the true Market Masters of the 21st Century."

Dawn Bolton-Smith, Founder-Member of the Australian Technical Analysis Association, Senior Technical Analyst, Educator & Writer.

"Dr. Mircea Dologa has masterfully defined and delineated the Median Line procedure that is central to Pitchfork Analysis and trading. His basic and intermediate theory and practice is a definitive work in this important realm of technical market analysis."

Professor Oliver Henry Pruden, Professor of Business Administration and Executive Director of the Institute for Technical Market Analysis, Golden Gate University, San Francisco, USA.
