**Go with the market, let it be your guide.
Never impose anything on its behaviour.**

November 27 – 2015

The traders must progressively monitor the market move conditions that validate or invalidate this report's recommended projections. The below studies are technically derived estimates, which have a very high probability to occur, but they might not be exact. They are subject to re-examination and events may dictate their ultimate outcome. An astute trader always trades the market behaviour, not only the recommended projections.

Our research strongly suggests a "top-down" market analysis rather than other procedures. In our opinion, the performed studies with *Cash Index* data are more illustrative than those with *Futures Index* data. However, due to our *Futures* trading preferences, we will use every time, the most adequate data for a specific traded vehicle.

Oracle from Omaha always quips,

"You must be fearful when others are greedy and greedy when others are fearful!"

+++ Any QUESTIONS regarding this Report will be answered Promptly & Freely ! +++

CONTENTS of World Charting Report

Part I

MARKET Sentiment

BALTIC Dry Index
\$VIX Indicator
PUT/CALL Ratio Indicator
NYSE Advance / Decline Indicator
EBAY-Tier 1 Stock of U.S. Market
DOW Theory-Market Strength/Weakness

Part II

WORLD FINANCIAL Indexes

DOW JONES Industrial Average Index
S&P 500 Index
GERMAN DAX Index & CAC40
AUSTRALIAN S&P / ASX 200 Index
NIKKEI 225 Index
FTSE XINHUA 200 Index (China)

Part III - World COMMODITY Market

GOLD Comex Futures
SILVER Futures
LIGHT CRUDE OIL
NATURAL GAS Futures
COPPER Hi Grade Futures

Part I - MARKET Sentiment

Efficient *TOOLS* of *QUANTIFYING* the Market Strength / Weakness

BALTIC Dry Index - *Bearish Market still in progress*

About us:**Email:** mircdologa@yahoo.com

Dr Mircea Dologa began his investment and trading career in 1987, in pharmaceutical and real estate industries. Once he passed the Series 7 and Series 3 exams, he obtained the two indispensable trading licences controlled by United States Government: the *Registered Commodity Trading Adviser (CTA) Licence* and *Registered General Securities Representative - Investment Adviser Licence*. During the training periods, he realized the scarcity in financial literature and trading seminars, of the true 'know how' practical tools. After reading hundreds of books and attending numerous seminars, the same question kept popping up: *Where is the meat?* Most of the time, besides the classics... it wasn't there!

As a registered Commodity Trading Advisor (CTA) with National Futures Association of U.S.A., he founded a *new teaching concept*, based on practical aspects of trading, for both newcomers and experienced traders.

He published more than 50 articles and he is an international contributor to trading magazines in the USA ('*Technical Analysis of Stocks & Commodities*', '*Futures*' and '*eSignal.com Education Section*'); the United Kingdom ('*The Technical Analyst*'); Germany ('*Traders*' – English- and German-language editions); Australia ('*Your Trading Edge*') and Asia ('*The Trader's Journal*'). He is also the founder and the president of www.pitchforktrader.com – a specialized trading website.

Dr Mircea Dologa has written three books, over 1224 pages, 1560 charts and 44 Excel files, in his quest to efficiently teach the trading art from the beginner's level to the highest nowadays standards – the professional level. The author's main thought during the three years of planning, conceiving and writing these professional trading books, was how to optimally reveal the practical aspects.

Dr Mircea Dologa attended New York University and Cooper Union School of Engineering and Science in New York and graduated from the latter with a B.S. in Theoretical Physics. He obtained his Doctorate in Medicine from the School of Medicine in Paris. He also took MBA courses in finance and business management at the University of South Carolina in Columbia and at the French School of Business and Finance (HEC Paris France). After holding the positions of Medical Director and later of General Manager, in 1992 he decided to focus exclusively on his investments and since then he has devoted his activity to financial markets. He lives with his wife and two daughters in Paris, France.

About Dr Mircea Dologa's works:
Trader, Educator (including mentorship) & Market Researcher

Volume 1 - 444 pages
 (Beginner & Intermediate Level)

Volume 2 - 300 pages
 (Advanced Level)

Volume 3 - 480 pages
 (Advanced Level)

The below reviews pertain to Volume 1

Breakthrough studies of Integrated Pitchfork Analysis

"Dr. Mircea Dologa picks up where Dr. Alan Andrews left off in his breakthrough studies of 'pitchfork' pattern analysis. In his new book, the author has taken the interpretation and application of 'pitchfork' patterns to an entirely new level. After studying Dr. Dologa's well written and very well illustrated book I will never look at a chart the same way again. What Dr. Dologa has done with 'pitchforks' is absolutely amazing. You've got to read it to believe it. Pitchfork patterns can provide so much practical and useful information that you will be referring to this book over and over. The book ends on a high note with an excellent chapter on Case Studies and Money Management. Traders will want to keep this powerful book handy for frequent reference. Highly recommended."

Chuck LeBeau, Director of Quantitative Analysis for SmartStops.net and co-author of *Computer Analysis of the Futures Market*, noted trader, lecturer and trading systems developer.

Integrated Pitchfork Analysis: Basic to Intermediate Level is an introductory text to the branch of Technical Analysis which uses the Andrews' pitchfork trading technique. Designed for traders with no experience of Pitchfork Analysis this book demonstrates how to analyse the markets and trade using pitchfork analysis, assisting the novice trader in achieving a consistent performance.

Written by experienced trader, Dr Mircea Dologa, the founder of www.pitchforktrader.com, the book begins by introducing and discussing the basic theory of pitchfork trading, providing a description of the technique, how to analyse the charts and how to make a decision based on that analysis. It then moves on to the more practical aspects about the low risk high-probability trade from its inception to its termination. Crucially expert guidance on money management and risk management techniques - when to get in, when to get out and where to locate the initial or trailing stops is also provided.

Ultimately *Integrated Pitchfork Analysis: Basic to Intermediate Level* will teach you how to trade, how to follow the markets and how to consistently make money.

Cover Design: Jim Wilkie

WILEY
wiley.com

"Dr. Mircea Dologa's book, Integrated Pitchfork Analysis, combines the breadth of evolving theory with the depth of experience acquired from years of practical application, leaving almost no stone unturned in an exploration of the Pitchfork and its application to profitable short-term trading. Many of Dr. Dologa's ideas are truly innovative, reflecting his understanding of human nature. It would be difficult to find a more complete coverage of Pitchfork trading. It is a mine of (literally) valuable information."

Tony Plummer, Director, Helmsman Economics Ltd, and author of *Forecasting Financial Markets: The Psychology of Successful Investing*.

"It has indeed been a privilege for me to have access to Dr Mircea Dologa's amazing analysis which I consider to be an extremely important contribution to Technical Analysis. His development of Integrated Pitchfork Analysis in synergy with existing state-of-the-art trading tools resulting in an easy to use professional edge technique has not been previously utilized. This undoubtedly increases the improvement of trading accuracy, leading to enhanced confidence with greater profitability for both trading and investing. This book is a truly remarkable achievement in the field of Technical Analysis and Dr. Dologa, like myself, is motivated to educate traders and investors on the wonderful world of Technical Analysis and how it can help them in these volatile markets. I believe Dr. Dologa will join the true Market Masters of the 21st Century."

Dawn Bolton-Smith, Founder-Member of the Australian Technical Analysis Association, Senior Technical Analyst, Educator & Writer.

"Dr. Mircea Dologa has masterfully defined and delineated the Median Line procedure that is central to Pitchfork Analysis and trading. His basic and intermediate theory and practice is a definitive work in this important realm of technical market analysis."

Professor Oliver Henry Pruden, Professor of Business Administration and Executive Director of the Institute for Technical Market Analysis, Golden Gate University, San Francisco, USA.
