**Despre Dr-ul Mircea Dologa:**

**Emil: [mircdologa@yahoo.com](mailto:mircdologa@yahoo.com)**

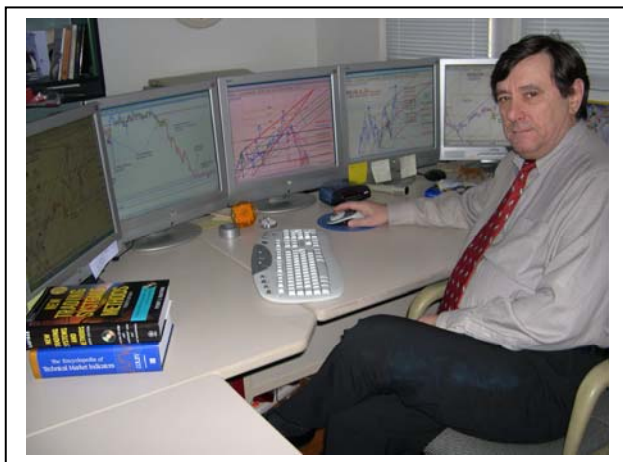

El si-a inceput activitatea de investitor si trader in 1987, in industria farmaceutica si cea imobiliara. Dupa promovarea examenelor aferente (*Series 7 si Series 3*), care sunt sub controlul guvernului Statelor Unite, el obtine cele doua licente indispensabile pentru tranzactionare: *Registered Commodity Trading Adviser (CTA) Licence* si *Registered General Securities Representative - Investment Adviser Licence*. In timpul studiului personal a realizat ca literatura de specialitate si seminariile sufera de o lipsa pronuntata de instrumentelor de utilitate practica, adica adevaratul 'know how'. Dupa studiul a sutelor de carti si numeroase seminarii, aparea aceeasi intrebare: *Unde este unealta profitabila, imediat aplicabila?* De multe ori, dincolo de informatia standard... nu se gasea nimic util!

Ca Analist Tehnic Certificat (CTA) de National Futures Association din S.U.A., a fondat un *nou concept de predare*, bazat pe aspectele practice ale activitatii imediat profitabile de tranzactionare, ce poate fi utilizat atat de incepatori cat si de traderi experimentati.

Este autorul a mai mult de 50 de articole si este colaborator international al revistelor de specialitate din SUA (*'Technical Analysis of Stocks & Commodities', 'Futures' and 'eSignal.com Education Section'*); Marea Britanie (*'The Technical Analyst'*); Germania (*'Traders'* – editiile in limba Engleza si Germana); Australia (*'Your Trading Edge'*) si Asia (*'The Trader's Journal'*). Este de asemenea fondatorul si presedintele [www.pitchforktrader.com](http://www.pitchforktrader.com) – un site specializat de tranzactionare.

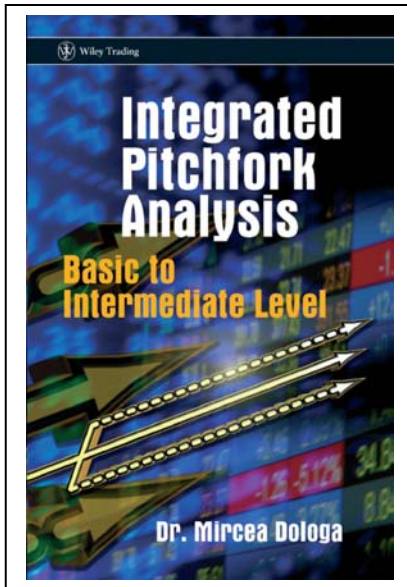

Dr Mircea Dologa a publicat trei volume, continand peste 1224 pagini, 1560 grafice si 44 fisiere Excel, in incercarea sa de a preda in mod eficient arta tranzactionarii de la nivel de incepator pana la standardul actual cel mai inalt – nivelul profesionist. Grija principala a autorului in timpul celor trei ani de planificare, concepere si scriere a acestor manuale profesionale de trading a fost aceea de a dezvalui in cel mai optim mod, aspectele practice imediat profitabile ale tranzactionarii.

*Dr Mircea Dologa a studiat la New York University si Cooper Union School of Engineering and Science din New York si a absolvit cea din urma institutie cu titlul de Licentiat in Fizica Teoretica. A obtinut titlul de Doctor in Stiinte Medicale la Facultatea de Medicina din Paris. De asemenea a urmat cursurile de Master in Finante si Administrarea Afacerilor din cadrul Universitatii South Carolina din Columbia si ale Universitatii Franceze de Afaceri si Finante (HEC Paris, Franta). Dupa ce a activat o perioada indelungata ca Director Medical si ulterior General Manager, in 1992 a decis sa se concentreze in mod exclusiv asupra propriilor investitii si s-a lansat in tranzactionarea pietelor financiare. In prezent locuieste in Paris, Franta, impreuna cu sotia si cele doua fiice.*

**Breakthrough studies of Integrated Pitchfork Analysis**

*"Dr. Mircea Dologa picks up where Dr. Alan Andrews left off in his breakthrough studies of 'pitchfork' pattern analysis. In his new book, the author has taken the interpretation and application of 'pitchfork' patterns to an entirely new level. After studying Dr. Dologa's well written and very well illustrated book I will never look at a chart the same way again. What Dr. Dologa has done with 'pitchforks' is absolutely amazing. You've got to read it to believe it. Pitchfork patterns can provide so much practical and useful information that you will be referring to this book over and over. The book ends on a high note with an excellent chapter on Case Studies and Money Management. Traders will want to keep this powerful book handy for frequent reference. Highly recommended."*

Chuck LeBeau, Director of Quantitative Analysis for SmartStops.net and co-author of *Computer Analysis of the Futures Market*, noted trader, lecturer and trading systems developer.

*Integrated Pitchfork Analysis: Basic to Intermediate Level* is an introductory text to the branch of Technical Analysis which uses the Andrews' pitchfork trading technique. Designed for traders with no experience of Pitchfork Analysis this book demonstrates how to analyse the markets and trade using pitchfork analysis, assisting the novice trader in achieving a consistent performance.

Written by experienced trader, Dr Mircea Dologa, the founder of [www.pitchforktrader.com](http://www.pitchforktrader.com), the book begins by introducing and discussing the basic theory of pitchfork trading, providing a description of the technique, how to analyse the charts and how to make a decision based on that analysis. It then moves on to the more practical aspects about the low risk high-probability trade from its inception to its termination. Crucially expert guidance on money management and risk management techniques - when to get in, when to get out and where to locate the initial or trailing stops is also provided.

Ultimately *Integrated Pitchfork Analysis: Basic to Intermediate Level* will teach you how to trade, how to follow the markets and how to consistently make money.

Many of Dr. Dologa's ideas are truly innovative, reflecting his understanding of human nature. It would be difficult to find a more complete coverage of Pitchfork trading. It is a mine of (literally) valuable information."*

Tony Plummer, Director, Helmsman Economics Ltd, and author of *Forecasting Financial Markets: The Psychology of Successful Investing*.

*"It has indeed been a privilege for me to have access to Dr Mircea Dologa's amazing analysis which I consider to be an extremely important contribution to Technical Analysis. His development of Integrated Pitchfork Analysis in synergy with existing state-of-the-art trading tools resulting in an easy to use professional edge technique has not been previously utilized. This undoubtedly increases the improvement of trading accuracy, leading to enhanced confidence with greater profitability for both trading and investing. This book is a truly remarkable achievement in the field of Technical Analysis and Dr. Dologa, like myself, is motivated to educate traders and investors on the wonderful world of Technical Analysis and how it can help them in these volatile markets.
